Washington, April 30. The Secretary of State, by direction of the President, has examined certain papers submitted to him relating to the late Confederate Loan. Among them is a communication dated London, March 10, 1866, and signed by order of Sir Provo Willis, K. C. D.; E. Morgan, Secretary; Francis Phillips, C. M. T. Weston, W. M. Morgan, J. M. Howey. The plan which they propose, is that the United States Government shall furnish to that committee a copy of the contract which they say was made between Erlanger & Co., of Paris, and the late Confederate Government, at Richmond, together with the particulars of the settlement of the same. The committee promise that the outstanding Confederate Cotton Loan bonds shall be delivered up to agents of the United States for cancellation, the bond-holders to guarantee that either they or their friends will subscribe forthwith to a new loan to be created by the cotton and tobacco States for five million rounds (£5,000,000) at fifty per centure, payable in London, the money to be used solely in redeveloping the revenues of these States. In the event of the credit of the Southern States being restored through the influence of the last-mentioned operation, a second loan of £5,000,000 is to be taken at sixty per centum within three months after the placing of the first loan upon the market. In the event of such second loan being successful, then a loan for £10,000.000 is to be taken at seventy

per centum, after a like interval of time. After reviewing the above-mentioned and other communications submitted, the Secretary of State says: "I am of the opinion that neither the nature of these several communications, nor the matters discussed therein, nor the form in which they are therein treated, nor the character of their authors, nor that of their agent, is such as to deserve consideration on the part of the Government of
